## LESSON 7.5

# DESIGN A ROAD SAFETY APP

---

**DIRECTIONS:** Work in a group to brainstorm an idea for a mobile app that helps improve pedestrian and/or bicyclist safety. You'll present your app idea to the class using a short Google Slides or PowerPoint presentation. Have fun and think big — your idea could help save lives!

### TIPS FOR A GREAT PRESENTATION:

- Make sure your idea relates to pedestrian and bicyclist safety.
- Keep your slides clear and simple.
- Give everyone in your group a speaking part.
- Practice what each person will say.

# SLIDE REQUIREMENTS

---

## SLIDE 1: APP NAME AND PURPOSE

What is the name of your app? Who is it for? What would it do?

## SLIDE 2: FEATURES AND TOOLS

List the most important features your app would include.

## SLIDE 3: SAFETY IMPACT

What problems would this app help solve? How could this app make pedestrians and/or cyclists safer?
